CENTURY

WE FOCUS ON MEMORY

Here for business?
So is **Windows® 2000.**

Microsoft

Where do you want to go today?*

How to get the most out of Comdex '99:

- ☒ **Read headline to the left.**
- ☐ **Realize that Microsoft® Windows® 2000 was built for business.**
- ☐ **Attend the Bill Gates Comdex Keynote.**
Sunday, Nov. 14, Venetian Hotel Ballroom, 7-8 p.m.
- ☐ **Experience Windows 2000 Hands-on.**
Explore firsthand the digital business features of Windows 2000.
Northeast corner of South Hall, Las Vegas Convention Center, Exhibit Floor, Level 1
- ☐ **Pick up a free Windows 2000 Evaluation CD at the Windows 2000 Hands-on Experience, the Windows 2000 Grand Theater, or the Microsoft Booth.**
- ☐ **Visit the Windows 2000 Demo Stations.**
See solution-based demos and talk to the Windows 2000 product team.
Microsoft Booth, Las Vegas Convention Center, South Hall, Exhibit Floor, Level 1
- ☐ **Attend the Windows 2000 Grand Theater.**
See compelling presentations of the features and benefits of Windows 2000. Chance to win Windows 2000 merchandise.
Microsoft Booth, Las Vegas Convention Center, South Hall, Exhibit Floor, Level 1
- ☐ **Visit the Microsoft Partner Pavilion.**
See Windows 2000-based solutions by Microsoft industry partners. *Las Vegas Convention Center, South Hall, Exhibit Floor, Level 1*
- ☐ **Check out the Microsoft "Windows of the Future" Technology Showcase.**
Get a sneak peek at exciting, cutting-edge technologies. *Las Vegas Convention Center, South Hall, Exhibit Floor, Level 1*
- ☐ **Attend Equal Access Benefit for UNCF.**
Proceeds from ticket sales benefit underfunded colleges and universities to educate the next generation of IT professionals. Tickets are \$35. Drop by the Microsoft Info Counter for details.
Monday night, Nov. 15, House of Blues, Mandalay Bay Hotel
- ☐ **Party like it's 1999.**

Premio Systems Simply the Best

At Premio, customer focus is not just an empty mantra. We demonstrate it every day. In the ten years since our inception, our goal has been to anticipate the ever-changing needs of our customers. We established build-to-order before it became the industry norm. Our systems offer trouble-free operation right out of the box because they are made from the finest components. And we back every system we manufacture with first-rate support and service from nearly 90 locations across the nation.

new Diskeeper® 5.0 — Get your free trialware version.
See us in the Microsoft Partner Pavilion.

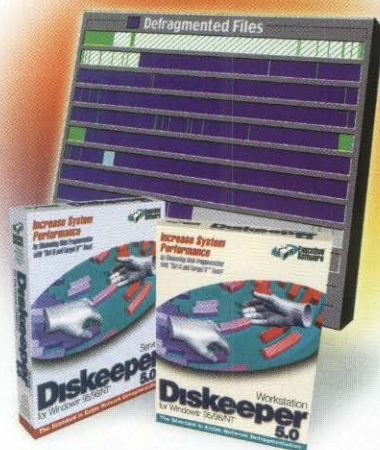

Advanced Technology... Unprecedented System Performance

IT'S HERE! Diskeeper 5.0 is the most cutting-edge defragmenter ever built and its superior networking technology is setting new standards. Now you can schedule and defragment your entire Windows 95/98/NT network remotely with "Set it and Forget It"™ ease. Diskeeper also includes an industry first—Frag Guard® Exclusive breakthrough functionality actually monitors and prevents fragmentation on your most critical Windows NT® system files.

Just in! Independent lab test results prove what our customers have known for years: Diskeeper unleashes more system speed and performance than many hardware upgrades actually deliver—and at a fraction of the cost!

- **BRAND NEW!** Frag Guard—prevents fragmentation of the MFT and paging files!
- **EXCLUSIVE!** "Set It and Forget It"™ automatic scheduling of online defragmentation.
- **EXCLUSIVE!** Remotely schedules, monitors and controls fragmentation across a mixed Windows network (95/98/NT).
- **Proven 100% Safe & Reliable!** Completely compatible with your existing Windows NT 4.0/95/98 system.

Experience firsthand the benefits of increased system performance across your entire site. Test new Diskeeper 5.0 today! Volume licensing and Government / Education discounts available. For best pricing call your local reseller or call 1-800-829-6468.

Runs on Windows 2000!

WE'RE LOOKING AT YOU FOR A REASON.

We want the 3dfx name alone to send shivers up and down the spines of our competitors. The visual experience our products deliver? We just want that to make their collective jaw drop while begging the question, "Why aren't we doing that?"

Passion. Each of our employees has it big time. Passion to create. Passion to push forward into uncharted markets. Passion to have fun, as a team. Right now, we're at 100 billion operations per second and 8 million triangles per

second. We've worked our way into OEMs, and our market dominance has never looked better. We are the fastest growing 3D Graphic accelerator board company with revenues to exceed \$500 million and our latest Voodoo 3 boards are far outselling our closest competitors.

Now, we're looking at you to help keep us growing. Come find out more about what goes into making never-before-seen, hyper-realistic 3-D technology a reality. Bring your passion to 3dfx.

WELCOME

Welcome to COMDEX/Fall '99!

Jason E. Chudnofsky
*President and CEO,
ZD Events*

I am pleased to welcome you to a very special COMDEX. This year we are celebrating our 20th Anniversary. Over the last two decades we have been privileged to host the launch of many of the major technologies that have become cornerstones of today's technology

marketplace. At Sunday's IT Industry Retrospectives Ceremony we will celebrate the breakthroughs of the last twenty years and look ahead to what the future holds for the IT industry. Whatever the future may bring, you can be sure you'll see it first at COMDEX.

As befits a milestone event, this year's COMDEX is bigger and better than ever. In addition to our peerless Technology Conference, you'll find more special conference programs addressing the issues that are important to you. Developers Design and Methodology Clinics. InfoSecurity University. Open Source Software Development Forum. IT Executive Symposium, brought to you by the Yankee Group and Ziff-Davis. And more — all geared towards improving your ability to compete in the challenging 21st century IT marketplace. Our official *Show Daily* and *Program & Exhibits Guide* are your best roadmaps to all COMDEX has to offer.

On the expo floor you'll find more pavilion areas than ever, making it easy for you to see hot new technologies in action. And be sure to check out the COMDEX Hot Spots, which combine cutting-edge technology and vendor-sponsored education right on the show floor. You'll find hot spots dedicated to IBG Biometrics; Start-Up city, where you'll find the companies to watch in the years to come; and more. And this year COMDEX welcomes LINUX Business Expo '99 to Las Vegas. This is the place to find out if this hot new operating system is right for your business.

Many people have worked hard to make COMDEX Fall '99 your portal to the 21st century, and it has paid off. I'm sure you'll agree.

Have a great week here in Las Vegas.

Welcome to COMDEX/Fall '99!

Eric Hippeau
*Chairman and CEO,
Ziff-Davis*

On behalf of Ziff-Davis, I am pleased to welcome you to the 20th Anniversary of the World's leading information technology event.

On the eve of the new millennium, the technology industry finds itself facing more paths, and more choices, than ever before. The Internet has opened up new ways to do business over and above the e-commerce model, from the availability of dynamic new operating systems such as Linux to the e-sourcing Web-based applications. New hardware platforms, from "smart phones" to PDAs are challenging — and many say ending — the decades-long dominance of the PC. And the growth of a truly global economy has changed the rules of engagement for channel/resellers.

To compete in the exponentially more complex marketplace of the new century, the buyers and sellers of technology need access to the most up-to-date, accurate information available, 24 hours a day, 7 days a week. At Ziff-Davis, we are committed to ensuring that our millions of IT professional customers around the globe are empowered and enlightened by every one of our products serving the Internet-enabled marketplace.

This year many of Ziff-Davis' other media platforms will be working overtime to enrich your COMDEX experience and make sure you don't miss a minute of the 20th anniversary celebrations. In addition to COMDEX TV, you'll find ZDTV at COMDEX, which will offer special reports throughout the event. COMDEX Radio, produced by *PC Week* Radio and ZDNet, will keep you informed with special broadcasts over the Web. And, ZDNet will feature special COMDEX sections online.

Events like COMDEX provide a powerful platform for direct, hands-on interaction with the people, products and companies that are shaping the next century of technology solutions. As we stand on the threshold of this new of this new century, Ziff-Davis takes pride in being your media, marketing and information source in the Internet economy. Thanks for being with us.

SuperSessions: Beyond the PC – The Digital Appliance Revolution

All badged conference attendees as well as Exhibits Plus, VIP Ticket Plus and Exhibits Plus Guest badge holders may attend the PowerPanels and SuperSessions. See page 35 for a complete schedule.

Conference Club

Sponsored by

XEROX

All conference attendees are automatically members of the COMDEX Conference Club. Members are entitled to use the Club in the Sands/Venetian Conference Complex.

COMDEX Intranet: Novell Connecting Points

Novell, Inc. is again creating the world's largest live production network, enabling COMDEX attendees to stay connected to each other and their offices more easily this year. The COMDEX Intranet: Novell Connecting Points allows attendees to send and retrieve e-mail, schedule appointments, and access the Internet from three central locations on the show floor or from their hotel rooms via a browser. Through a special dial-up service, you can access e-mail and the Web, and scan your calendar for show events from anywhere. New features this year include a dynamic COMDEX Event Schedule, "My COMDEX Planner," and expanded exhibitor descriptions including a series of "virtual booths" with in-depth product information from many companies.

Exhibit Hours

	LAS VEGAS CONVENTION CENTER (ONLY)	LAS VEGAS HILTON, SANDS EXPO & CONVENTION CENTER

Conference Notices

Notice of changes in sessions, special events, etc., will appear on sign boards in all Registration Areas. Last-minute information is also published in *Today at The Conference*, a newsletter that can be found daily in the Registration and Conference Areas.

Conference Audio Tapes

In the event that you're not able to attend all of the sessions of interest to you, audio tape recordings of most sessions are on sale at the Conference Cassette Sales booth in the lobby of the Las Vegas Convention Center and Sands Expo and Convention Center Street Level lobby. For reproduction of slides, etc., arrangements must be made with the individual speakers. Order forms and information are also online at www.comdex.com.

Conference Proceedings/Transcripts

Printed Conference Proceedings are not available at the show; however, verbatim transcripts will be produced and are available for sale at the Audio Cassette/Transcript Sales booth in the lobby of the SECC.

"Exhibits Only" and Exhibits Plus Registration

Admission to the Exhibit Halls is \$50 (for all five days) and includes Keynote sessions. Badges must be worn to obtain admission to Exhibit Halls.

Baggage Rooms

Baggage rooms are available at various exhibit sites for attendees who would like to bring their baggage for direct departure.

Las Vegas Menu Revue

The Las Vegas Menu Revue is located in the North Hall entrance of the Las Vegas Convention Center and provides a free restaurant referral and reservation service to all attendees and exhibitors. Stop by or call 791-9901.

Media/Analyst Facilities

Two Media Centers, sponsored by Gateway and Computer Associates, are maintained for convenience of all registered media and analysts. Services provided at the facilities:

Las Vegas/Hilton: Exhibitor Media Kits; Working Media Center, fully equipped with computer, fax and phone services; Media Lounge, Press Conference Rooms; Private Meeting Rooms (in Ballroom 6).

Sands Expo and Convention Center: Exhibit Hall A, upper level: Exhibitor Media Kits, Working Media Center, fully equipped with computer, fax and phone services; Media Lounge.

COMDEX Gift Shop and Book Store

The COMDEX Gift Shop is located in the Las Vegas Convention Center and the Sands Expo and Convention Center, where mementos can be purchased as gifts for business associates, friends, family members and yourself. The COMDEX Book Store, located in the Las Vegas Convention Center and the Sands Expo and Convention Center, has industry-related books for sale.

COMDEX Center for International Commerce

On the Upper Level (Exhibit Hall A) of the Sands Expo and Convention Center, the newly re-named Center for International Commerce is supported by the U.S. Department of Commerce. The CIC offers many free services to international delegates and U.S. exporters, including daily seminars expertly presented by DOC specialists and international trade consulting.

Show Management Office and Information

Information concerning any aspect of the Conference and Exposition may be obtained at the Registration Desks or at the Information Booth at the various registration sites.

Best of COMDEX Awards(www.bestofcomdex.com)

PC WEEK, in cooperation with COMDEX, will be honoring prominent products of COMDEX/Fall with the "Best of COMDEX" Award. The winners and finalists will be announced at a special ceremony on Wednesday, November 17, 1999 at 2:30 pm. at Las Vegas Hilton, Pavilions 2 and 3.

Chili for Children Cookoff for Charity (www.micrografx.com)

Information and tickets for this annual charity event to benefit the National Center for Missing & Exploited Children with lead sponsorship by Micrografx, Inc. are available in the Las Vegas Convention Center's Grand Concourse and Sands Expo and Convention Center's Grand Concourse and Sands Expo and Convention Center Upper Lobby. The event is scheduled for Tues., Nov. 16, 6:00 - 11:00 pm at the MGM Grand Conference Center, with shuttle buses available from exhibit sites and most hotels.

Tech Corps (www.ustc.org)

Dedicated to improving K-12 education at the grassroots level through the integration of technology into the learning environment, Tech Corps targets both business and education leaders. The group recruits, places, and supports volunteers from the information technology community who help K-12 schools introduce and integrate new technologies into the learning environment. See Tech Corps in the LVCC Lobby.

National Cristina Foundation (www.cristina.org)

The National Cristina Foundation is a not-for-profit public charity that seeks donations of used or excess computers and related technology to benefit programs involved in the education, rehabilitation, and job training of people with disabilities, students at risk of failing, and people who are disadvantaged. The foundation assists corporations with their long-range exit strategy planning for donation of their used PC technology. Corporate donors may qualify for significant tax benefits for donations of equipment. See NCF in the LVCC Lobby.

FALL '99 CONFERENCE HIGHLIGHTS

COMDEX/Fall '99 Keynotes

COMDEX Keynotes bring you face-to-face with the luminaries who are shaping the post-PC era of technology. Share their insights into the dramatic evolution from today's trends to tomorrow's standards. All Comdex Keynotes will take place in the Grand Ballroom of the Venetian Resort Hotel and Casino (accessible through the Sands Convention Center).

COMDEX/Fall '99 CONFERENCE HIGHLIGHTS

The COMDEX/Fall Conference, the IT industry's premier educational event, will enable you to make educated decisions on the technologies you need to successfully do business in the 21st century. Gain perspective on complex technologies and issues. Find comparisons on products, tools and technologies. Evaluate your technology alternatives. Discover what your options are and learn what they mean to you. If you are an IT professional, a software developer, a corporate manager or a channel member trying to figure out where to place your bets for the year 2000 and beyond, the COMDEX/Fall Conference will be the most valuable educational event of the year.

*All Keynotes, Millennium Perspective Keynote Panels and the Super Session will take place in the **Grand Ballroom of The Venetian Resort, Hotel and Casino**. The COMDEX/Fall Technology Conference sessions, tutorials and special programs will take place in the **Sands/Venetian Conference Complex**. The Linux Business Expo will take place at the **Las Vegas Hilton**.*

For dates, times and detailed session descriptions for all COMDEX Conference Programs, please refer to the Conference Guide published under separate cover.

Tuesday, November 16

10:30–11:30 am

Grand Ballroom, Venetian Hotel, Resort and Casino

SuperSession: Beyond the PC — The Digital Appliance Revolution

Smarter, faster and more convenient digital appliances such as PDAs, cell phones and other digital devices are now performing tasks formerly dependent upon a PC. Even mundane products already in our homes such as cameras, TVs, cable boxes — and even the refrigerator — are getting smart. What kind of impact will this new breed of products have on the way we work, live and play? What impact will they have on the traditional PC? Who will be the key players — the industry behemoths or entrepreneurial ventures? What products will the channel sell and make money on? How will formerly disparate technologies work together? This SuperSession will show and tell you exactly what to expect.

Chair: Tim Bjarin,
President, Creative Strategies Inc.

Speaker: Mike Polacek,
*Vice President, Information
Appliance Division, National
Semiconductor*

Speaker: Selcuk Caglar,
*Director of Business Development,
Vestel USA*

Speaker: Jonathan Roberts,
*General Manager, Market Development Windows
CE Division, Microsoft Corporation*

Millennium Perspectives: Keynote Panels

Our distinctive Keynote Panels, moderated by your favorite technology journalists, bring together the movers and the shakers who are propelling e-commerce, networking, and Internet devices into the next millennium.

Monday, November 15

4-5 pm

Grand Ballroom, Venetian Hotel, Resort and Casino

Electronic Commerce Panel

The ability to conduct business transactions over the Internet is becoming a ubiquitous reality. Global business is coming to rely on the emergence of the Internet as a utility. No one is more than a phone call or e-mail away from critical information. As new applications and access devices have come online, businesses have looked for new ways to gain competitive advantage — whether through reinventing their sales and marketing to take advantage of the efficiencies of the Web to the actual buying and selling of products. The issues of Web-based marketing, business process evaluation, security, and just-in-time manufacturing and delivery of products are becoming the cornerstones of success in this new marketplace. How can you assure your company will be visible in this new market? How can you encourage new transactions without sacrificing existing investments? This panel will offer their visions of where this electronic revolution is headed, where the challenges will emerge, and how you and your organization can be prepared to take advantage of the electronic commerce future.

Moderator: Lou Dobbs,
Broadcast Journalist

Panelist: Jerry Yang,
Chief Yahoo, Yahoo! Incorporated

Panelist: Gideon Sasson,
*Enterprise President,
Electronic Brokerage,
Charles Schwab & Co, Inc.*

Tuesday, November 16

4-5 pm

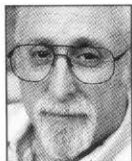

Grand Ballroom, Venetian Hotel, Resort and Casino

Internet Devices Panel

In the information appliance market, the competition between the PC vendors, Web TV vendors and appliance vendors is rapidly gaining momentum. For the growing Mobile Workforce, the increasing availability of Internet connections (and the expected availability of broadband wireless) is allowing the mobile worker to remain in constant contact with the office. The tools utilized will have a dramatic effect on productivity, creativity, connectivity and manageability. But what devices will the mobile workforce use and what access solutions they will employ? What hand-held PC will be most cost-effective? Will the functionality of "smart phones" rival those of the PC? And, what role do PDAs play in this equation?

Software applications based on Java applets and CE operating environments will be powering devices, from the embedded system chips in everyday appliances and automobiles, to more complex hand-held PCs and PDAs. How these tools will be seamlessly connected and managed is a growing concern.

This panel will take a fresh look at this exploding marketplace, and provide new insights and visions for what the future of the market beyond the PC will hold for everyone.

Moderator: Walter S. Mossberg,
Personal Technology Columnist,
Wall Street Journal

Panelist: Craig Mundie,
Senior Vice President, Consumer
Strategy, Microsoft Corporation

Panelist: Bill Joy,
Founder and Chief Scientist,
Sun Microsystems Inc.

Psion PLC and Symbian Ltd.

Panelist: Alan Kessler,
President, Palm Computing

FALL '99 CONFERENCE HIGHLIGHTS

Wednesday, November 17

4-5 pm

Grand Ballroom, Venetian Hotel, Resort and Casino

Broadband and Networking Panel

Broadband/communications and networking have been the engines that have powered the ubiquity of the Internet. From the early days of AlohaNet and ARPANet to today's Gigabit Ethernet, ATM and Virtual Private Networks, the deployment and utilization of these communication facilities have made the Internet what it has become today — an invaluable reality in global business.

Reliability, flexibility and manageability have become the differentiating factors in evaluating network alternatives. Increasingly, network providers are being asked to provide remote secure access for emerging mobile workers and competitive pressures in the local loop have delivered new options for customers. The battle for the last mile is just beginning and emerging applications are increasing demand for cost-effective services.

As electronic commerce continues to grow as the force that ties businesses and their customer's closer together, all network suppliers from service providers to equipment vendors will be forced to meet new competitive pressures. Our Broadband/Networking Panel will examine the technologies and applications that will be the reality of the next century.

Moderator: Seth Schiesel,
Chief Telecommunications Reporter,
The New York Times

Panelist: Kathleen Earley,
President, AT&T Internet Services

Panelist: Bruce Claflin,

Panelist: Lewis O. Wilks,
President, Internet and Multimedia
Markets, Qwest

The COMDEX/Fall Technology Conference

The COMDEX/Fall Technology Conference is the best place to become a better-informed buyer of information technology. Not only will you learn what your choices are for key platforms, tools, technologies, and infrastructures, you will learn which choices you must make now to survive and prosper in the new Internet economy. Whether you are an IT professional, corporate manager, a software developer or a member of the distribution channel, you will leave the COMDEX/Fall Technology Conference with a full understanding of the implications of making — or failing to make — critical IT decisions.

The COMDEX/Fall Technology Conference comprises more than 50 sessions organized into five tracks—

- Architectures 2000: Planning Platforms for Tomorrow
- Convergent Communications
- Compete.com: Commerce Becomes Electric
- Code Complete: Developing Applications for the 21st Century
- Navigating the New Economy

COMDEX/Fall Tutorials

The COMDEX/Fall Tutorials, taught by some of the industry's premier networking, telecommunications and IT experts, technologists and authors, will deliver the intensive, comprehensive and relevant information that will ensure a maximum return on your company's technology investments. In one day, you will gain the expertise you need to design, build and implement technology solutions.

- Planning and Implementation of Windows 2000 (NT 5.0) Active Directory Services
- Hot Topics In Networking: IP Switching, MPLS, QoS, Voice over IP, VPN
- Designing Network Infrastructure with the New NetWare
- Introduction to XML
- Telecommunications Essentials™: Voice and Data Networks
- Implementing Windows 2000 Networks
- ExtraNet and VPN Design for Mobile Workforces and Business Relationships
- Securing Today's Networks
- More Cutting-Edge Tools for Web Development
- Telecommunications Essentials™: Next-Generation Networks
- Understanding TCP/IP: Implementing the Protocols of the Internet
- Corporate Portals: The Next Generation of Desktop Computing
- Fundamentals of Wireless Networking and Mobile Communications
- Wireless Computing from A to Z
- Voice, Video and Fax Over IP: Architectures, Protocols and Standards
- Implementing a Network and Systems Management Center, and a New Information Systems Organization for the 21st Century
- Architecting, Building and Deploying Successful E-Commerce Sites
- Implementing IP Version 6: Migrating to the Next-Generation Internet Protocol
- Successful IT Project Management

COMDEX/Fall Tutorials (continued)

- Domesticating the Methodology Dragons Instructors
- Building Scalable Application Architectures for Your Business

Other Conference Programs:

For Corporate Managers

The **IT Executive Symposium**. Produced in cooperation with The Yankee Group. A two-day executive program featuring skilled technology and market experts delivering strategic perspectives on e-sourcing Web-based applications.

Investment Strategies for the IT Industry. Produced in cooperation with Bear, Stearns & Co., Inc. Your guide to the investment landscape for the next ten years.

Linux Business Expo. Is Linux ready for the enterprise? This conference will meet the needs of the non-developer/IT management audience that must understand the business issues of using Linux. This Conference and Expo takes place at the Las Vegas Hilton.

The **International Business Summit**. Produced in cooperation with International Data Corporation. Experts will address issues and concerns of interest to companies seeking global business opportunities in computer hardware and software, consulting services, systems integration, education and training, OEM, distribution, and most other high-technology products and services.

For Technology Professionals

InfoSecurity University - Produced in cooperation with MIS Training Institute. Uncover the security breaches within your technologies, and identify cost-effective tools for detecting and plugging the loopholes.

Industry in Transition. What will the next few years bring? We'll bring together the best experts in the field to look at the competitive landscape, marketplace trends, consumer demands and more. Produced in cooperation with PC Magazine

Windows 2000 Deployment Program. As with any other operating system, the success or failure of a Windows 2000 implementation will be determined by the planning Implementation, migration, and integration strategies will all be covered. In two days, we'll have you ready for Windows 2000.

For Developers

Open Source Developer. This intensive two-day technical program, produced in association with O'Reilly and Associates led by the most knowledgeable presenters on Open Source in the business, will improve your skills in Perl, Linux and Apache.

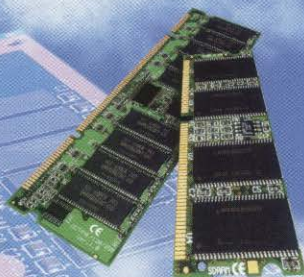

Java University, produced in cooperation with Sun Microsystems, this skill-oriented developers program that contains concise, technically detailed sessions designed and delivered by expert Java engineers.

how close is my memory solution? ***Really close!***

We made it easy... we put quality ISO 9001 registered design and manufacturing at multiple sites around the globe. That's why memory's best new designs are ready to ship when you need them most. And Transcend quality comes with a history -- ten years of R&D engineering and manufacturing experience. We're the memory and mainboard manufacturer strategically positioned to serve the world's most outstanding customers.

For high-reliability memory in high-end workstations, servers, desktops, notebooks, PDA's, cameras, and fax machines, Transcend is the leader. Transcend designs, manufactures, and distributes 2000 products, including RIMM Modules. As a registered Intel, Sun, SGI, and Apple developer, Transcend enjoys one of the fastest time-to-market ratings in the industry. And every design delivers one very predictable result: rave reviews from customers.

Transcend understands your vision to lead the field today and tomorrow. We're the memory manufacturer with power to get you there.

COMDEX
Fall '99 Nov. 15-19 '99
Booth No. L5313

Transcend Information, Inc.

1645 North Brian Street, Orange, CA 92867, U.S.A.

Tel: 714-921-2000 Fax: 714-921-2111 Toll Free: 800-886-5590

All brand names are the registered trademarks of their respective owners.

More than 2000 exhibitors converge at COMDEX/Fall '99 to offer an unparalleled selection of the newest computer hardware, software, and related products, programs, and services. The show spans the Las Vegas Convention Center South Hall, Grand Concourse, North Hall and North Meeting Rooms, the Las Vegas Hilton, and the Sands Expo and Convention Center Upper Levels.

New this year are exhibit floor Hot Spots:

- Digital Home Networking Hot Spot (Sponsored by the HomeRF Working Group and Hometoys.com)
- Security Hot Spot (Sponsored by Symantec)
- COMDEX/IBG Biometrics Hot Spot (Sponsored by International Biometrics Group)

And new Pavilions and Showcases:

- COMDEX/Kodak Solutions Pavilion (Sponsored by Eastman Kodak)
- Bluetooth Pavilion (Sponsored by Bluetooth)
- Information Appliances Pavilion (Sponsored by National Semiconductor Corporation)
- COMDEX Pavilion - (Sponsored by SOFTBANK, Yahoo Internet Life! Computer Shopper and ZDNet)
- Start-Up City
- Internet Services/Broadband

As well as returning special areas:

- USB Pavilion (Sponsored by Universal Serial Bus Implementers Forum)
- COMDEX/DiscoverIT Mobile and Wireless Showcase (Sponsored by DiscoverIT)
- Kaplan COMDEX Career Fair

IN THIS SECTION YOU WILL FIND:

- An alphabetical exhibit description directory including exhibitor names, addresses, telephone numbers, URLs and descriptions of products and services;
- Floor plans of all exhibit sites;
- The Product Locator, a listing by category of exhibitors' products and services.

And now . . .
a word to our sponsors.

www.1stnettech.com
619-675-4449

Booth L1413

Crayon Crawler is a suite of child-oriented Internet tools, providing a safe and secure environment for children to navigate the Internet, send e-mail, play games, and participate in real-time chat. The application addresses concerns about inappropriate online content by providing pre-approved Web sites. Animated talking cartoon characters (using Microsoft Agent technology) interact with children, read books and e-mail, and answer Help questions. EnvoyMail, a comprehensive listserve, database, and e-mail application, offers control over information management and distribution for individuals or businesses building and maintaining large in-house e-mail databases. The product delivers customized e-mail content, including attached files, to targeted groups for immediate or scheduled delivery. Real-time reports are generated automatically and continuously and 24/7 remote access is available to any computer on the Web.

3D3.Com Pty., Ltd.

11 Raleon Ave., Frankston, Victoria, 3199 Australia
www.3d3.com

Booth S1673

ShopFactory is an e-commerce turnkey solution for merchants and Web site developers. This point-and-click editor creates online shops with shopping baskets. Users can build stores in 17 languages (including Chinese). The editor is available in English, French, German, and Dutch. The company's products are currently used in 40 countries. The storefronts run on any server straight after uploading. With real-time payment systems, the product can create HTML and 3D VRML shops. The company is seeking distributors worldwide, ISPs, and payment systems for partnering.

3dfx Interactive, Inc.

4435 Fortran Dr., San Jose, CA 95134 USA
408-935-4387

Booth LN256

3Dlabs, Inc.

480 Potrero Ave., Sunnyvale, CA 94086 USA
www.3dlabs.com

408-530-4700 **Booths L5001R, L5002R, L5003R**

3Dlabs supplies hardware and software graphics accelerator solutions for workstations and design professionals. The company develops silicon, boards, and software drivers to create products for users who rely on graphics for their productivity. The company's Oxygen and Permedia products are sold to PC OEMs, through an international reseller network, and directly on the company's online store.

3J Tech Co., Ltd.

2F, 342 Fushing N. Rd., Taipei, 104 Taiwan R.O.C.
www.a3j.com.tw
886-2-2500-6916

Booth S3136I

With its strong R&D design and engineering team, 3JTech offers OEM and ODM products to major Taiwanese and worldwide companies. The company designs, engineers, and manufactures innovative products such as the Pegasus palm-sized 4.3-oz. pocket fax modem. The 56K V.90 modem is universal and works with virtually any computer including PCs, Macs, laptops and Palm and Psion series units, and other PDAs. The company has a manufacturing plant in Taipei county and offers wireless radio modems, infrared pocket modems, cost-effective SOHO PBX phone systems, security cameras and a proprietary computerized weapon detection system.

911 Computer Co., Ltd.

501 Youngsan Electronic Officetel, 16-58 3-KA
Hangang-Ro, Youngsan-Gu, Seoul, 140-013 Republic
of Korea
www.911.co.kr
02-704-9117

Booth S2443

911 Computer provides a system where users can use Linux and Windows on one PC. Users can select the OS by pushing a button, using a maximum of three HDD for different operating systems on one PC. Selected HDD can be safe-locked to avoid misuse. Users can set up a Linux environment without changing the established environment, and start up another OS in case of HDD failure. The system works with Windows 95/98/NT, Linux, OS/2, and BSD.

AAC, Inc.

Computer Peripheral Div.

570 W. Lambert Rd., Ste. M, Brea, CA 92821 USA
www.aacix.com
714-255-9186

Booth S1473

AAC manufactures high-quality USB hubs, USB upgrade cards, and related connectivity products. Converters, USB Ethernet network adapters, and multiport hubs are included in the product line. The company's millennium designs save space, reduce equipment costs, and improve systems management through centralized control.

EXHIBIT DESCRIPTIONS

Aaeon Electronics, Inc.

3 Crown Plaza, Hazlet, NJ 07730 USA

www.aaeon.com

732-203-9300

Booth S4055

Aaeon Electronics is an ISO 9001-certified manufacturer of PC-compatible single-board computer solutions. The company designs and manufactures half-size, full-size, compact, and PC/104 single-board computers and I/O modules. *New* products include the PCM-6890 Celeron Compact Board, the SBC-656 Half-size Celeron CPU Card, the PCM-4896 MediaGX Compact Board, and the PCM-5896 Super7 Compact Board Single Board Computers. The company provides complete technical support, including system integration and LCD BIOS/cable customization; OEM and ODM services are also available.

Abbyy Software House

Abbyy USA

46560 Fremont Blvd., Ste. 203,

Fremont, CA 94538 USA

www.abbyy.com

510-226-6717

Booth L5C24

Abbyy Software House develops optical character recognition (OCR), handprint recognition (ICR), form processing, full-text retrieval and linguistic software. FineReader, a *new* generation of intelligent OCR systems, precisely retains the original document layouts and supports 53 languages. FineReader Handprint recognizes handwritten characters and was designed as an industrial-strength, shrinkwrap system for automated bulk-form input. Both products are available in developer-edition versions.

Abera Systems Corp.

15, Ln. 17, Ming-Chunag St.,

Chu-Pei City, Hsin-Chu, 302 Taiwan R.O.C.

www.abera.com.tw

886-3-553-6106

Booth L663C

NoteTaker is an information collector combining scanner, fax, and digital still camera functions in one unit. The portable, wireless device offers 4MB built-in flash memory and rechargeable battery and can transfer data and images for mobile phones and PDAs with a USB or IrDA interface.

A-Best Wire Harness

& Components Co., Ltd.

Adtech develops specialized products to integrate communications into existing Ethernet LANs, including IP telephony, video, data, fax, e-mail, access control, smart card identification, and payment. Based on priority and bandwidth management, the company's Multimedia Ethernet Switch makes all delay-sensitive (real-time) communications possible on Ethernet: both voice and video, but with critical industrial control. The company's 10/100Mbps IP Phone routes telephone traffic directly through the LAN infrastructure without any loss of quality. Its built-in smartcard reader enables highly secure identification and payments. Also provided is an Ethernet Smartcard Terminal for stand-alone applications.

Cool Snap is a line of heat sink assemblies that was created for various PGA, BGA, CBGA, and PBGA devices. The line of PowerPC processors on the market was one of the reasons that the Cool Snap was developed. Although current sizes of 15-48mm exist, special sizes can be designed in a short period of time. CoolPoly is an injection moldable innovation in thermal cooling with a heat transfer rating of over 100 w/m-k. The technology allows for unlimited design possibilities for all types of thermal solutions. With optimum geometry for higher h coefficient, and over one-third lighter than aluminum, the material is suited for computer cases, cell phone cases, and all types of CPUs in small spaces.

Choice Distributors, Inc.

2590 N. Powerline Rd., Pompano Beach, FL 33069 USA
954-970-4480

Booth S3172

Choice Distributors is a worldwide wholesaler/broker of multimedia CD-ROM software, and a Microsoft-authorized reseller. The company's titles in both retail and OEM format are in excess of 2000 selections, including applications such as education, entertainment, productivity, and many others. The company provides extremely competitive pricing, and convenient one-stop purchasing. Weekly and monthly specials featuring newly released and blowout clearance titles are offered. A brokering team can locate buyers and sellers for special requests or liquidation needs.

Chrontel, Inc.

2210 O'Toole Ave., San Jose, CA 95131 USA
www.chrontel.com
408-383-9328

Booth S4635

Chrontel is showcasing PC-to-TV encoders and the C-MOS digital camera sensor. The CH7xxx family of digital encoders offers both Macro Vision and non-Macro Vision, adjustable underscanning scaling for flicker line filtering, and high-quality text rendering. These encoders are used in both notebooks and desktops for viewing DVD games on TV, presentations, and set-top boxes. The CH5xxx family of digital camera sensors in C-MOS technology is available in mono or color in a

352x288 format. Integrated features give a one-chip solution. Also demonstrated are H.323 and H.324 software.

Booth S4732

CNA Credit insures accounts receivable against non-payment. The policy guarantees payment for merchandise shipped or services provided to other companies throughout the world. The company's Export Credit Insurance provides a cost-effective alternative to letters of credit and eliminates the paperwork of handling both letters of credit and foreign credit reports. In the past, the typical U.S. exporter required the customer to post a letter of credit to secure the sale. A credit insurance policy removes the need for a letter of credit, thereby saving customers money and keeping products competitive. The company offers businesses flexible domestic and export credit insurance to assist in managing global credit risk.

CNF Mobile Solutions

Booth L1573

Micro Solutions manufactures the backpack line of external parallel printer port drives that require no interface card to install. Backpack drives attach to the parallel printer port, work with PCs and laptop computers, and are designed to be lightweight and portable. Drives include the *new* 4x4x20 backpack bantam CD-RW - a dual-port interface drive that attaches to either the parallel port or PC card slot and weighs 20 ounces; the backpack bantam CD-ROM (with or without built-in 16-bit sound); the Dual Port (parallel port and PC card slot) backpack bantam CD-ROM; and hard drive and diskette drive models. Backpack drives are compatible with Win95/98/NT. The company holds two U.S. patents and one Canadian patent for parallel port interface mass storage technology.

Microsphere

1020 Mainland, Ste. 101,

Vancouver, BC V6B 2T4 Canada

www.microsphere.com

604-605-3225

Booth L2863

Microsphere is a new generation of computer workstation. The result of a complex study of human form and requirements, and how people interface with the computer world, its design starts with the basic comprehension that those who conduct marathon sessions before their computers operate within a three-dimensional spherical environment. Until now, the only mobile component has been the body of the user, which spends hours of unhealthy rigidity in front of the computer. The Microsphere philosophy changes this through ergonomics, adjustability and more.

Mylex, having shipped its millionth RAID controller solution, is showcasing a full line of SAN-Ready RAID controllers including high-performance 64-bit, 66MHz PCI RAID controllers (eXtremeRAID) with Ultra 160/m and Fibre Channel interfaces and External Fibre-to-Fibre Channel RAID controllers (SANArray and SANArray Pro). Also on display are *new* additions to the company's cost-effective line of PCI RAID controllers (AcceleRAID). All products offer high performance, fault tolerance, data availability, and scalability.

Mytec Technologies Inc.

1220 Sheppard Ave. E, Ste. 200,

Toronto, ON M2K 2S5 Canada

www.mytec.com

416-467-6000

Booth BIO18

Mytec Technologies provides fingerprint-based biometric solutions for organizations requiring a high level of security for network and physical access. The company delivers strong authentication through the use of a robust finger pattern recognition algorithm operating in a trusted device. In addition to providing high security, the company's technology eliminates the need to remember passwords and, therefore, enhances user convenience and reduces password management costs. Individual privacy is maintained because only a non-reversible biometric template called a Bioscrypt is stored, not the fingerprint itself.

The School of Computer and Information Sciences (SCIS) offers traditional and non-traditional educational program formats that enable professionals to pursue an advanced degree without career interruption. The school champions and practices distance education - a concept realized through approaches such as cluster, institute, and online programs (via the Internet and World Wide Web). Degree programs lead to a bachelor's in computer information systems or computer science, a master's in computer information systems, computer science, computing technology in education, or management information systems, and a doctorate in computer information systems, computer science, computing technology in education, and information science and information systems.

PhoneMe Ltd.

2033 Gateway Pl., Ste. 600, 6th Fl.,
San Jose, CA 95110 USA
www.phoneme.net
408-573-6744

Booth L349

PhoneMe is an Internet-enabled toll-free service for corporate users. The service uses existing telephone networks to connect customers by voice to the organization on whose Web site they are browsing. There is no need for telephony integration on the subscriber's Web site or for downloading of software onto user desktops. This ability to connect customers for free at the click of a mouse, combined with very low telephone charges for subscribers to the service, has drawn many companies to use the service both on an Internet and intranet basis for sales, help desk support, account manager contact and customer care. The service can be up and running globally in a few hours in an extremely flexible manner, creating a new return-on-investment scenario for toll-free services. All U.S. calls are billed by the second at 10.4 cents per minute.

Videx manufactures portable data collection and controlled entry systems. The company's data collection products include bar code and Touch Memory button readers. Rugged metal cases protect the products, even in harsh environments. Each portable reader is designed to fit comfortably in the user's hand. The company also manufactures Touch-Alert and TouchAccess, access monitors that can be mounted on file cabinets, toolboxes, or anywhere the user wants to track and control access. TouchAlert records each authorized entry and emits an alarm when an unauthorized entry is attempted. TouchAccess is an intelligent lock that permits only authorized entry. Stored data can be retrieved using a Palm Pilot.

ViewQuest Technologies Inc.

46716 Lakeview Blvd., Fremont, CA 94538 USA
www.vqti.com
510-580-9898

Booth LN223

ViewQuest Technologies International manufactures quality computer hardware products. Its product lines include image input/processing devices such as PC Camera (DVC) and Digital Still Camera (DSC); slim, ultra-portable laptop computer systems; and high-speed, high-performance optical devices. Established in 1998, the company was once a business unit within Lite-On Group. OEM/ODM services are available, and the company supports distribution channels worldwide.

ViewSonic Corp.

381 Brea Canyon Rd., Walnut, CA 91789 USA
www.viewsonic.com
909-444-8800

Booth L5323

ViewSonic is a worldwide provider of display technology products including CRT monitors, flat panel displays and projectors. Products on exhibit include 15- and 18.1-inch flat panel displays, both digital and analog. The company's flat-panel displays feature a thin profile, high brightness and long life for financial or any mission-critical applications where workspace, weight and power conservation are major considerations. In addition, the company is highlighting 17-, 19- and 21-inch CRT monitors featuring high resolutions, PerfectFlat SonicTron technology, short depth and USB.

Booth S2436

WorldMan is exhibiting Worldman for Win98/NT, which enables Web surfers to browse without language barriers by providing one-click translation assistance in major Asian and European languages (including English, Korean, Japanese, and Chinese). The company also is exhibiting WorldFinder for Win98, an Internet meta-search tool that searches through Web sites in 10 different languages. When the user enters the query keyword in one of the 10 languages, the program automatically translates the keyword into the other languages and searches relevant Web sites. A server version, WorldFinder for Linux/Unix/NT Server, caters to Web-search portal services wishing to implement multi-language search capability.

THE DEVELOPER'S DILEMMA

You feel pulled in two directions

On one hand, thanks to piracy and unauthorized use, you know you're losing one dollar for every dollar you make.

On the other hand, you're afraid you'll lose customers if you try to protect your applications.

HASP® absolutely destroys that dilemma!

HASP gives you outstanding protection, plus it's extremely friendly to your end-users.

In fact, National Software Testing Laboratories compared HASP to our major competitor and declared HASP Number One.*

Twenty-five thousand developers have solved their dilemma by choosing HASP. Why don't you?

Call for your Developer's Kit today!

Intel Inside[®]

ViewSonic[®] on top!

Selecting the right PC is only half the battle. Today the company you choose to provide your display solution is just as important. Innovations like flat panel displays, multimedia monitors, large screen CRTs and portable LCD projectors are changing the old phrase "Monitor Sold Separately" to "PC Sold Separately".

ViewSonic, a world-wide leader in developing and marketing exciting display innovations is again setting new industry standards.

- ViewSonic offers #1 best selling monitors in the USA*
- ViewSonic offers #1 best selling flat panel displays in the USA*
- ViewSonic has won over 550 prestigious industry awards to date
- ViewSonic provides a complete line of LCD flat panel, CRT and LCD projector displays
- ViewSonic is the 3 time back-to-back winner of the VARBusiness Annual Peripheral Excellence Award
- ViewSonic is this year's runaway winner of the Computer Reseller News Channel Champion Award

By placing ViewSonic on top of your list of display companies, you're ensuring the excellence of your Visual Computing[™] experience.

Exotrope: **Developing Software for Internet Safety**

BAIRSM

**BLOCKS WEB PORNOGRAPHY
with Artificial Intelligence**

The BAIR Filtering System, utilizing artificial intelligence, has achieved an amazing 99% effectiveness filtering pornography from the Internet on the fly. It provides the total safety and security that homes, schools and businesses demand.

Redefining Education

EdNextSM

A "defined scope" educational search engine with over 100,000 web pages, pre-screened and previewed by certified teachers. EdNext is a teacher and student information resource with "point & click" simplicity.

**Why COMDEX Uses Harvard Translations
to Connect the World**

When Webmasters at Comdex looked for a language company to localize its COMDEX Connect™ international matchmaking software, they turned to Harvard Translations. Why? Because Harvard Translations' expert engineers, linguists, and design specialists know how to create and localize multilingual software—whether it's on the Web or shrink-wrapped.

How do we do it? We use the best and brightest in the translation industry, with our own proprietary quality controls from start to finish. And we can do it for your company, too.

We Want To Be Your Language Partner

Harvard Translations understands how important your Web sites, communications, and collateral are to your business. Our seasoned team of language professionals and designers knows how to accurately communicate your message worldwide. Let us show you how we can help you reach new markets, communicate in new ways, and ultimately enhance your bottom line.

If your company wants to speak to the rest of the world, it's time to contact the Harvard Translations team. See us at the Sands Expo and Convention Center (Booth #___), and the Las Vegas Convention Center, or call us at our headquarters listed below to arrange for a consultation and a complimentary copy of *Language International*, the leading trade publication of international communicators.

HARVARD
TRANSLATIONS

your language partner worldwide

815 Somerville Avenue, Cambridge, MA 02140 • (800) 962-6477 • www.htrans.com

Transformations

every **1/2** hour

What if you could attend **a presentation** that cut through the Internet hype?

A presentation that **explains e-business for what it's really worth** and does not try to ambush you with fiction and overt extravagance?

Would you attend?

This year, you have an opportunity to transform your business. Come spend 30 minutes with Multiactive Software as we discuss the Internet and e-commerce, focusing on the challenges you face in today's global market. We promise that it will be time well spent. No hype. Real value. Useful information. **It's a can't miss.**

Come see us in Booth L3051

**For more information, phone 1-800-804-6299 or
visit www.multiactive.com today.**

© 1999 Multiactive Software Inc. All rights reserved.

Attract and retain customers.

Your Guide Through The Jungle Known As The Internet Is Waiting.

- In 1995, we saw the internet as a jungle, and decided we were the ones to tame it.
- We did. Today, as a full-service website design company, we are responsible for some of the most successful retail and institutional sites on the Internet. Our own Safari Media site averages more than four million visitors per year.
- In the field of Computer Based Training (CBT), we offer multimedia training for over 1,000 software titles, including Microsoft, Lotus, Netscape, Cisco, Novell, Oracle, Java, and others. Our award-winning CD-ROM and video courseware represents the fastest user-friendly application and Internet training available.
- If you believe the Internet is the primary marketing tool for the next millennium, join our Safari today. For information, contact Mardi Allen-Lutz, Director of Marketing, at 1.888.721.9497.

Booth
L5735

Anti-Virus Solution	MAY 1999	JULY 1999	SEPT. 1999
Computer Associates Inoculate/I ^T			
Network Associates Viruscan			
Symantec Norton Anti-Virus			

Based on bi-monthly tests conducted by Virus Bulletin, the international publication on computer virus prevention, recognition, and removal, May-Sept. 1999. The VB 100% logo is awarded to products that achieved 100% detection (for on-demand scanning) against the "In the Wild" test-set. "X" indicates products that failed to achieve complete detection of "In the Wild" viruses. All products tested using default settings on the following platforms: May-Windows 98, July-NetWare, September-Windows NT. For complete test results, visit www.virusbtl.com.

Only Inoculate/I^T™ was certified by Virus Bulletin to detect 100% of viruses "in the wild" for three consecutive tests.

But that's just the beginning. In virtually every aspect, Inoculate/I^T leaves the competition far behind. Inoculate/I^T detects and cures more viruses.

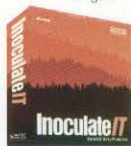

Inoculate/I^T is the premier anti-virus solution for heterogeneous networks, offering centralized management, realtime cure, automatic virus signature updates, extensive alerting, Internet and messaging system protection, and Windows 2000 compatibility. Inoculate/I^T is developed by the company that protects critical data for the world's

largest organizations — and CA's extensive network of global virus research centers provides the fastest response to any new viruses.

And even though the virus threat is continually changing, you can rest easy knowing that an innovative Heuristics Engine is providing defense against unknown viruses. Inoculate/I^T also protects your systems from malicious Java applets and ActiveX controls.

To find out just how easy and affordable it is to upgrade to the best virus protection, call us at 1-877-2 GO FOR IT or visit www.cai.com/ads/getavnow.

There's only one.

NEW PROGRAM!

COMDEX HOT SPOT PROGRAM

brings you the hottest technology and exhibitor-provided education sessions right on the show floor.

LAS VEGAS CONVENTION CENTER • SOUTH HALL

COMDEX/IBG BIOMETRICS HOT SPOT

Sponsored by **IBG** International Biometric Group

Compare the top systems from these markets: voice verification, face and hand geometry, dynamic signature verification and eye biometric/retinal.

LAS VEGAS CONVENTION CENTER • SOUTH HALL

SECURITY HOT SPOT

Sponsored by **SYMANTEC.**

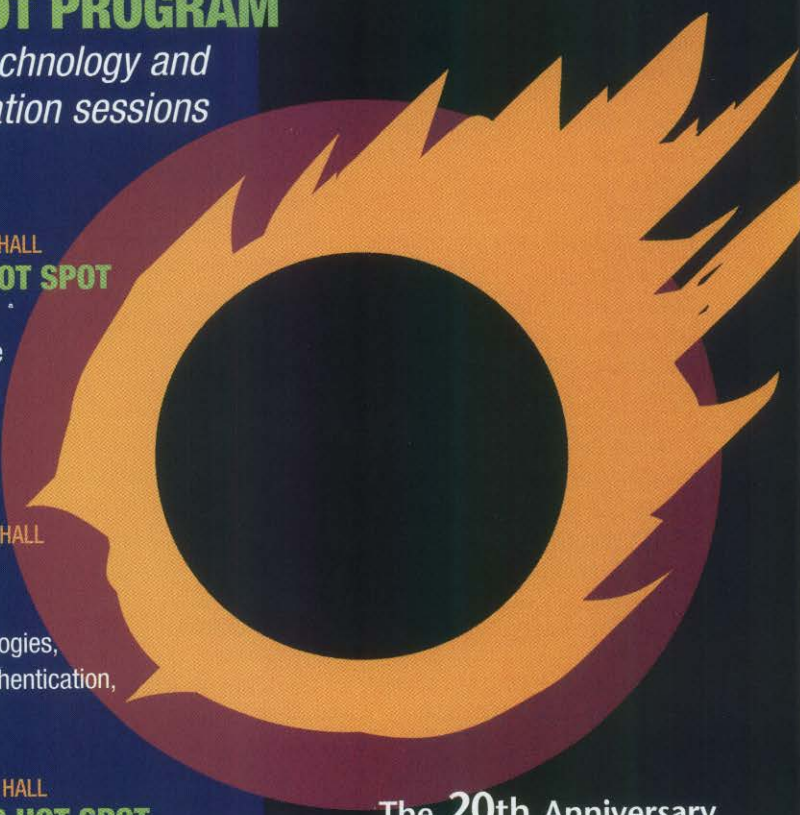

Investigate the latest security technologies, including firewall, VPN encryption/authentication, biometric and content security.

LAS VEGAS CONVENTION CENTER • NORTH HALL

DIGITAL HOME NETWORKING HOT SPOT

Sponsored by **HomeRF** and **home toys**

Check out the new class of digital products designed for small businesses and households that need wireless devices and communication tools.

The 20th Anniversary
COMDEX®
Fall '99

November 15-19, 1999 • Las Vegas, Nevada

**Booth numbers are subject to change.

TAKE TWO

Get the hottest COMDEX highlights delivered right to your hotel room.

Only COMDEX TV delivers the latest event news, interviews with industry leaders, live product demonstrations and a wrap-up of the day's events. Tune in to expert, fast-paced commentary on what's hot at this year's show—and which companies are making big moves and big news. COMDEX TV—it's the next best thing to being there.

Get your ZDTV here—the 24-hour TV channel dedicated to technology.

ZDTV is the first TV channel and integrated Web site to focus exclusively on computers and the Internet. And during COMDEX/Fall, ZDTV will be broadcasting live from the show.

The 20th Anniversary
 **COMDEX**
Fall '99

November 15–19, 1999
Las Vegas Convention Center, Las Vegas Hilton,
and Sands Expo and Convention Center
Las Vegas, Nevada

**Booth numbers are subject to change.
See the exhibitor list for updated booth
moves, pages 19-184.**

The SED Express: Your free ride to Sm@rt Solutions!

Take a ride with SED International to this year's Sm@rt Solutions. The first 250 resellers to register to attend the "Main Event" will ride in style to and from the airport as well as to and from the Convention Center and the Venetian Hotel.

Sm@rtReseller and SED International will be giving one lucky reseller the chance to win a New 2000 Volkswagen Beetle GLS in our COMDEX Heaven '99 Sweepstakes! The winner will be announced immediately following Sm@rt Solutions during the Sm@rt 50 Companies cocktail reception Tuesday evening, November 16.*

To enter the COMDEX Heaven Sweepstakes and sign up for a free ride on The SED Express (and see the official rules), log-on to www.smartreseller.com.

Are your profits increasing?

Or are you riding a wave that's already peaked and trying to figure out where to go next?

Sm@rtReseller has a solution. The place you can go for answers. You'll find out what new products and services are available, plus build partnerships that will work.

Where? Sm@rt Solutions.

Revolving around e-business, convergence and software platforms, you'll have the opportunity to:

- Attend brief discussions by vendors creating the hottest solutions
- Get answers to your technical questions
- See the technology up close and personal
- Enter to win a 2000 Volkswagen Beetle in the COMDEX Heaven Sweepstakes.

All for solutions providers. All in one location.

Sm@rt Solutions

The Reseller Connection

Tuesday, November 16 from 10:00 am to 5:00 pm
Venetian Hotel & Resort, Las Vegas NV

Sm@rt Solutions is FREE to registered COMDEX attendees. To register for COMDEX, go to www.comdex.com. To register for Sm@rt Solutions, logon to www.smartreseller.com.

Brought to you by

Sm@rtReseller

Oh, what an untangled web we weave.

With over 3.5 million web sites, it's a jungle out there. But for over 4 million surfers, we're the guide they turn to. We simply make sense out of the most confusing medium in history. That's one reason why Adweek voted us a top 10 "Hot Up and Comer." And why our rate base has grown to 600,000 in just three years. For ad space that's right in the middle of it all, give Paul Turcotte a call at (212) 503-4773.

It's not only where the
industry's going
...it's where the
economy's going.

(maybe we should call it
.comdex)

If you're interested in meeting the players,
products and companies driving the Internet
economy, there's only one event — COMDEX
— where the virtual world becomes real.

It's where everyone in the **.com** world
is going on November 15.

November 15 – 19, Las Vegas, Nevada

How to Spot a Winner

Just look for the PC WEEK/Best of COMDEX logo.
It's the mark of excellence that will be displayed at
COMDEX/Fall '99 by this season's Best of COMDEX
award winners — products and services that
represent the summit of technological achievement
and innovation.

Looking to do highly visible breakthrough work that will touch millions of lives?

Go Wild!

The whole techworld is talking about the marriage of computers, communications and entertainment and its immense implications. No doubt about it, Bell Atlantic is ideally positioned to profit from this technological fusion.

Some high-profile projects in progress? We are implementing potent e-commerce and knowledge management strategies that are sure to make a huge difference in how people learn, talk, think and relate. And we are on the edge of deploying a series of Internet-based options that will become the primary way for customers to purchase products and services. Yes, things are going to be wildly different in the very near future.

We have the brainpower, vision, reach and clout necessary to make important things happen (which is probably why we were named one of the "Most Admired Telecommunications Companies" by *Fortune** magazine). We are in hot pursuit of IT talent and are committed to finding the best and brightest out there. Our ability to win the race to the future depends on it. Relevant skills include:

**C++, JAVA, HTML,
Smalltalk, SQL,
Cobol, DB2, CICS, JCL**

Positions in Arlington, VA

- Software Engineers/Developers/Team Leads
- Developers/Team Leads
- Software Testers/Managers
- Automatic Messaging Accounting Specialists
- Project Managers - Process Improvement/Metrics
- Team Leads - Process Improvement/Metrics
- Sr. JAVA Developers

Positions in Silver Spring, MD

- Sr. JAVA Developers
- UNIX/AIX Systems Administrator
- Data Modeling Software Engineers
- Manager - Internet Systems Architecture
- Manager - Internet Systems Development

If you're looking for a truly rewarding career in an environment that is state of the art, look no further than Bell Atlantic. We offer remarkable benefits, including medical, dental and vision coverage; tuition assistance; childcare resource & referral services; and a 401(k) plan. For consideration, forward your resume, indicating source code (CX1115991T), salary requirements and position of interest, to E-mail: is.staffing4@bellatlantic.com or mail: Bell Atlantic, HR-IS Staffing, 1320 North Court House Road, Forum, Arlington, VA 22201. Bell Atlantic is an affirmative action/equal opportunity employer.

What's **next?**

Just when you thought you'd seen everything.

It's amazing what the Internet enables you to do. Even more incredible is what's coming next.

Join the Internet's key players at Nexttravaganza and get the insider's view of what's worked and what's next. You'll see the innovative achievements named the best of the Internet at the Fourth Annual GII

Awards Gala. You'll explore what's next at a thought-provoking ZD Internet.inc conference with the leaders and visionaries whose dreams and initiative are giving the Internet its wings.

Attendance is strictly limited. Call us for more information.

CENTER FOR INTERNATIONAL COMMERCE

The 20th Anniversary
at  **COMDEX**
Fall '99

NOW LOCATED AT THE
Sands Expo and Convention Center
Hall A

**HOURS OF
OPERATION:**

9:00 am – 6:00 pm
November 15 – 19, 1999

SERVICES OFFERED:

Export Interest Directory

Faxing Service for International Visitors
(Proceeds donated to charity)

Export Counseling provided by
U.S. Department of Commerce

Special Delegate Ribbons

Interpreter Services

U.S. Department of Commerce Foreign
Buyer Program

Private Meeting Rooms

COMDEX *Connect* Database

Thanks to  **COMDEX *Connect*** — our exclusive, free, computerized, global matchmaking service — it's easy for attendees to make connections worldwide from the COMDEX Center for International Commerce. The COMDEX CIC also provides — free of charge — export counseling, multilingual interpreters and private meeting rooms. It's all designed to help our exhibitors and international attendees locate their best prospects and partners.

COMDEX *Connect*

Get a handle on the future at these exciting "shows within a show." COMDEX pavilions provide a focus for specialized areas of technology where you can see live demos, check out the newest products and services that are making the new e-economy possible, and get to know the people who are helping make it happen. Step right in, roll up your sleeves and get your hands on the technology of the 21st century at:

The COMDEX/Fall '99 Pavilions

NEW PROGRAM! COMDEX/KODAK SOLUTIONS PAVILION

Sponsored by Eastman Kodak Company

The COMDEX/Kodak Solutions Pavilion is where attendees will have the opportunity to see the next wave of imaging, software applications, custom solutions and peripherals from companies that support Kodak's products and services in their solutions. This pavilion will feature solutions providers, independent software vendors, independent hardware vendors and OEMs.

UNIVERSAL SERIAL BUS PAVILION

*Sponsored by Universal Serial
Bus Implementors Forum*

USB connects to the complete dimension of PC-related experiences, from computers to peripherals to digital photography, PC telephony and videoconferencing. At the USB Pavilion you will see a wide variety of USB-compliant products that have instant connectivity to the PC through USB plugs and ports.

NEW PROGRAM! CANADA PAVILION

For the latest facts on Canadian information technologies and investment opportunities, drop by the Information Booth located in the Canada Pavilion.

National
Semiconductor®

NEW PROGRAM!

INFORMATION APPLIANCES PAVILION *Sponsored by National Semiconductor Corporation*

The Information Appliances Pavilion showcases technology beyond the PC. The phenomenal growth of information and the Internet is creating a huge demand for a host of new, easy-to-use devices for the home and the office. This new breed of information access and sharing devices — information appliances — are real, they are now, and they are here. The Information Appliances Pavilion is a paradigm in motion. Can you afford not to experience it?

Bluetooth™

NEW PROGRAM!

THE BLUETOOTH PAVILION

The Bluetooth technology makes its first appearance at COMDEX/Fall '99. The Bluetooth Pavilion is a showcase for the Bluetooth technology. It brings together the Bluetooth founding companies (Ericsson, IBM, Intel, Nokia and Toshiba) and other leading companies of the Bluetooth Special Interest Group (SIG). In the pavilion, companies of the Bluetooth SIG will be assembled to answer questions related to the Bluetooth technology, as well as demonstrate Bluetooth-enabled applications and solutions. Come see how the Bluetooth technology will make wireless connections easy.

A Note of Thanks

On behalf of the family of professionals at ZD Events, I would like to extend our appreciation to the attendees, exhibitors, conference speakers, advisory board members and press representatives for making this, the 20th Anniversary of COMDEX/Fall, the most important, most relevant and most memorable event the information technology industry will attend this year.

William R. Sell

*Vice President & General Manager,
COMDEX*

As you look through this Program and Exhibits Guide, you will see that we are using the vast resources of Ziff-Davis to meet our pledge of preparing you for the future of technology. As you walk the expo floor, listen to our all-star lineup of keynote speakers, attend the Millennium Perspectives Keynote Panels, learn at the Technology Conference, or at any of the specialized conference programs, you will experience the products, services and solutions that will drive technology in the new century.

Thank you for making COMDEX your event of choice. Your continued support and enthusiasm makes it possible for us to push the technology envelope and deliver an event that fulfills your technology needs, both now and in the future. I look forward to seeing you next April in Chicago for COMDEX/Spring 2000 and WINDOWS WORLD, as well as at other exciting ZD Events conferences and expositions around the world.

For the latest information about any of our events, please visit us online at **www.comdex.com**.

Your Embedded Computing Solutions

Please see us at

Booth #S4247

Looking for a smart embedded computing solutions?

To meet your specific needs, Advantech offers both board-level and system-level solutions to satisfy your embedded applications. For board-level needs, we have high-performance single board computers with professional technical service. For system-level needs, our full-function panel PC series provides you with flexibility and easy system solutions for use anytime and anywhere.

Board Solutions CPU cards & boards

Socket 370 & AGP 3D

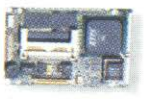

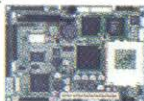

- **PCM-9570 5.25" SBC**
 - Socket 370 for Intel® Celeron™ processor
 - 100 MHz FSB for Pentium® III expansion
 - 2xAGP interface
 - 3D graphics engine
 - Panel Link to support 48-bit SXGA
 - 8" x 5.75"

Video Capturing

- **PCM-5864 5.25" SBC**
 - Pentium® MMX processors
 - 24-bit LVDS interface
 - Video capture & TV out
 - AC97 3D Surround audio
 - Fast infrared
 - 8" x 5.75"

Compact & Complete

- **CPC-2245 2.5" SBC**
 - STPC Client CPU
 - Supports XGA panels
 - CPC-2520 Module for LCD solution
 - 32 MB EDO RAM on board.
 - 100 Base-T Ethernet
 - 2.68" x 3.94"

System Solutions All-in-One Panel PCs

- **Full choice**
 - With 6.0", 10.4", 12.1" and 15" LCDs available
- **Comprehensive functionality**
 - CPU: 486, Pentium®, Pentium® MMX processors
 - VGA, Mic-in/Line-in/Line-out ports for multimedia
 - Built-in touchscreen (optional)
 - On-board Ethernet networking
 - Four COM ports, one parallel port
- **Flexible mounting options**
 - Panel, wall, desktop, or swing-arm mounting
- **AC/DC power supply available**
- **Industrial grade**
 - FCC, CE, UL compliant
 - NEMA 4/IP 65 front panel protection
- **Compact size**
 - From 2.4" to 4.2" in depth
